### Looks excellent. Reversal from primary trendline as well

[#FnOstock](#) [#SBIN](#) has completed a 9 month time correction towards the primary trend line & is all set to head higher from here.

This could also be a [#SIP](#) stock considering it broke out from a decade long consolidation in Feb'21.

Might continue to outperform [#Nifty](#) & [#Banknifty](#) [pic.twitter.com/mYk4exvOn7](https://pic.twitter.com/mYk4exvOn7)
