1. Orwell wasn't a science fiction writer. ORWELL WORKED FOR THE BIG BOY propagandists. He worked for the BBC during World War II. He said in his own biography, “I had to lie to the public to make them believe that the cheaper cuts of meat ....

@nikkino63786417 2. that was available during the war, all the ration stuff -all the stuff they'd normally throw away was actually better for them than the stuff that they had before.” That was the Department of Propaganda & that's where Orwell realised that by the erminology they were trained...

@nikkino63786417 3. to be use to could convince the public of anything & thars the same technique used today. But, at least Orwell got out of it. He didn't agree with it. We know it's a totalitarian world police state that we're going into the one that George Orwell warned us about & that will...

@nikkino63786417 https://t.co/V03NbrAYyz if we don't resist because have trained people from birth into the sort of Aldous Huxley type "Brave New World." That's to come out after the Orwellian phase we're going through right now.

@nikkino63786417 5. Interestingly, George Orwell in his "1984" called the particular country of residence for Winston "Ingsoc," which was a play on England socialism or English socialism. Major revolutions (physical revolutions)need masses of following & there always has to be a good reason....

@nikkino63786417 6. be a good reason for them to unify & overthrow whatever it is they're overthrowing & that's always been the case & what thry are trying to do now. Very clever deviant leaders & psychopath oligarchies understand this process. That's why if there's going to be a revolution ....

@nikkino63786417 7. they put their own boys into lead it. That way they can guide the outcome of it. People never fail to fall for this. They've been lied to so many times they haven't a clue what's really going on in the world...

@nikkino63786417 8. or what the big picture is, or the agenda is, or, if they do, they're double-minded. It's like Orwell's double-speak a condition of psychological tampering, it's like Orwell's double-speak, the ability to hold two opposite opinions in your head at the ....

@nikkino63786417 9. same time & rationalise each of them. Example: 'Boris Johnson is a lying tyrant & taking us into tyranny - but he is working on his promise with Brexit'. George Orwell did a
fantastic job with his book "1984," the title of which was chosen by the publisher.

@nikkino63786417 10. Orwell (real name Eric Blair) wanted to entitle it "The
Last Man," & in the actual book when Winston the character is being tortured by O'Brien, O'Brien asks Winston why he keeps saying that the people will win & Winston say's, "because we have to," ....

@nikkino63786417 11. "O'Brien says "well why do you personally think that? "why do you think you have rights?" Winston say's "Because i'm a man",O'Brien responds " "well if you're a man Winston you're the last man," meaning the last one of his type. A thinker. One who saw through indoctrination.

@nikkino63786417 12. Orwell, was well aware that the intent was to eradicate the thinkers. But that's new, the Communists did the same thing. Now how can you be free if you can not discuss anything or even ask a question out of curiosity? That's not freedom. That's legal tyranny.

@nikkino63786417 13. Communisim is always looking for efficency & I'm inclined to think that the scientific dictatorships of SAGE now & the future are planned to be the scientific dictatorships in many parts of the world & will probably be good deal nearer to the brave new world ...

@nikkino63786417 14. desire of control, because it's probably far more efficient than the 1984 efficency. In that if you can get people to consent to the state of affairs in which they're living. Then their state of servitude f being made amenable by use of mass propaganda...

@nikkino63786417 15. mass brain washing, mass media terror through mass production methods on the social level, you can then bring a society that is more easily controllable than you would if you were relying on say on firing squads & concentration camps. .

@nikkino63786417 16. And, you keep the firing squads & concentration camps in reserve. I think that insofar as the psychopathic dictators want a more & more scientific run society the more concerned thay will become with a technically perfect, perfectly running society.

@nikkino63786417 17. I know i mention Pavlov a lot, but Pavlov made some extremely profound observations both on animals & on human beings. He found among other things that yhe same conditioning techniques applied to animals or humans in a state either of psychological or physical stress.

@nikkino63786417 18. Pavlov, found repeated states of psychologival and/or physical state in very deeply into the mind-body of the creature & these experiences were extremely difficult to get
rid of. That they seemed to be embedded more deeply than other forms of conditioning.

@nikkino63786417 19. This fact was of course, discovered empirically in the past. We know this because these techniques have been used to control the people, between the old emperical system into the next. However, i think there is real difference today & that used by the inquisitors ...

@nikkino63786417 20. of the 16th century. They know much more precisely about us now, what we are doing, than they knew back then.
Dr. William Sergeants book written in 1975 (i think) entitled " Battle For The Mind; A Physiology of Conversion and Brainwashing" is well worth reading ...

@nikkino63786417 21. Sergeant hits on the Pavlovian method, thats being very much used on us today. Sargeant talks about the producing of conversions which were essentially based on the technique of heightening psychological stress to the limit by talking about hellfire ...

@nikkino63786417 22. therefore making people extremely vulnerable to suggestion & then suddenly releasing this stress by offering hopes of heaven. There is a very interesting chapter in the book of showing how completely on purely intuitive & empirical grounds a skilled natural psychologist ...

@nikkino63786417 23. could discover these Pavlovian methods. Well, as I say, we now know the reason why these techniques worked becuse they are being used on us, to keep the Covid narrative going. And of course in recent history of brainwashing, these techniques ...

@nikkino63786417 24. are applied to prisoners of war & to the lower personnel within the communist party in China, we see that these Pavlovian methods have been applied systematically with evidently extraordinary efficacy.
