# Twitter Thread by Modern Life... (Stranger by the day - Fun though)!

**Modern Life... (Stranger by the day - Fun though)!**
@Livooo

## This is the biggest story in World #Sport at the moment

## The way the narrative is starting to play out is so reminiscent of the #Trump election - It's a scary template!

## Regulated media V's Unregulated Media competing to tell the story ■#Boxing #Tribal

For any #boxing / #sport fan with no previous knowledge of these characters, we should be sceptical of simplistic caricatures that are served up by Online Fans OR stenographers masquerading as journalists!

There's a lot of sh*t out there! ■■

Research & Critical thinking! ■

If we accept the @panorama programme #boxingandthemob then we have a situation whereby #OrganisedCrime has not only infiltrated BUT is dominating a Global/Professional Sport!

If that's the case, what's to stop these forces taking over #Football OR other major Sport next?

#MTK

Another question would be;

If #OrganisedCrime has taken a controlling interest in professional sport, how come the #SportsMedia #Promotors #Sponsors #Athletes #Management #Fans have done little to call it out? ■■

@BTSportBoxing @SkySportsBoxing @DAZNBoxing
#MAGA #MTK #Media

And why are there so many Boxers/Trainers/Fans online dismissing this story as some kind of #WitchHunt against #Kinahan ?

- "Stop being a hater"
- "No criminal convictions"
- "Good for the sport"
- "The boxers love him"
- "Look at all the investment he's making in sport/charity"

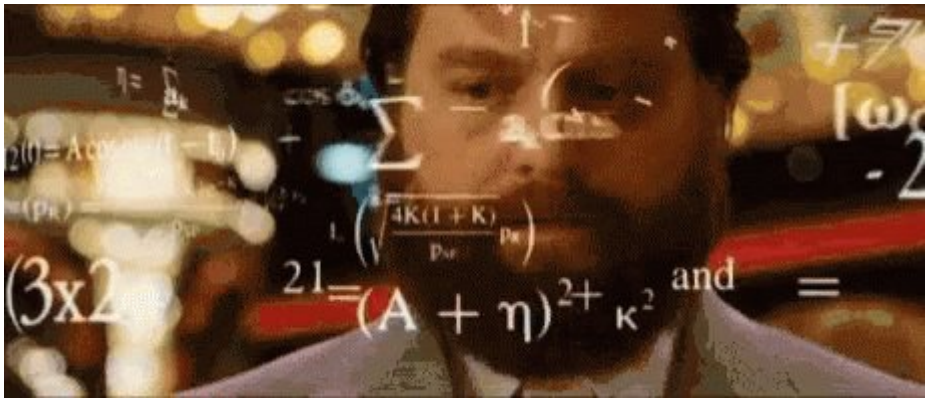

Let's consider the x2 key questions;

- Is Kinahan part of Serious Organised Crime / Is an OCG trying to legitimise itself through the control of professional sport?

- If so, why does they seem to have so much support?

The evidence...

■

Real Organised Crime has heritage / lineage (like Royals■)

#Power #Control #systems #Families

In the UK/Ireland, Tier 1 criminals used to be Bank Robbers/Big time thieves in the 60's/70's.

Drugs became big in the 80's/90's■

Money grew exponentially ■■

So, start there ■

The Hutch-Kinahan feud has been relatively quiet in recent months, as wars between gangs in Dublin and Drogheda connected to Owen Maguire and Cornelius Price have gained worldwide headlines.

The murder of Keane Mulready-Woods in Drogheda has seen a new wave of extreme violence.

The 17-year-old was kidnapped and dismembered before his body parts were dumped around the capital to send a message to rivals.

Christy's brother Larry famously told Gardai in 1985 after being sentenced to 14 years for possession of IR£60,000 worth of heroin, cocaine and cannabis, "If you think we're bad, wait til you see what's coming after us."

And while they don't talk any more, Christy said his brother was right, as Irish criminals copy what is happening in Mexico to settle their scores.

He said: "It's a pity (the Gardai) are not stricter on the streets. And they'll need it soon, the way things are going.

"I was the one who said it all ten years ago, this is the way it's going to end up. You haven't seen nothing yet. Wait and see, They're doing what they do in Mexico.

"They learn everything from television and these films.

Read the extensive reporting & books from the last 30 years.

Look at the recurring names, systems, connections, convictions, dead bodies, wrecked societies!

And consider ■ Maybe we better watch out for this!?

It's real - It's Dangerous - It's being Normalised!

Like Trump was

Serious Organised Crime is a multi-national business.

Those TV shows we've seen about Italian, Russian, Latin Americans Mafia's/Cartels etc that seem Dark, Scary - Sexy, Glamorous!?

Read the Irish, Spanish & international press though

Stories from real communities ■

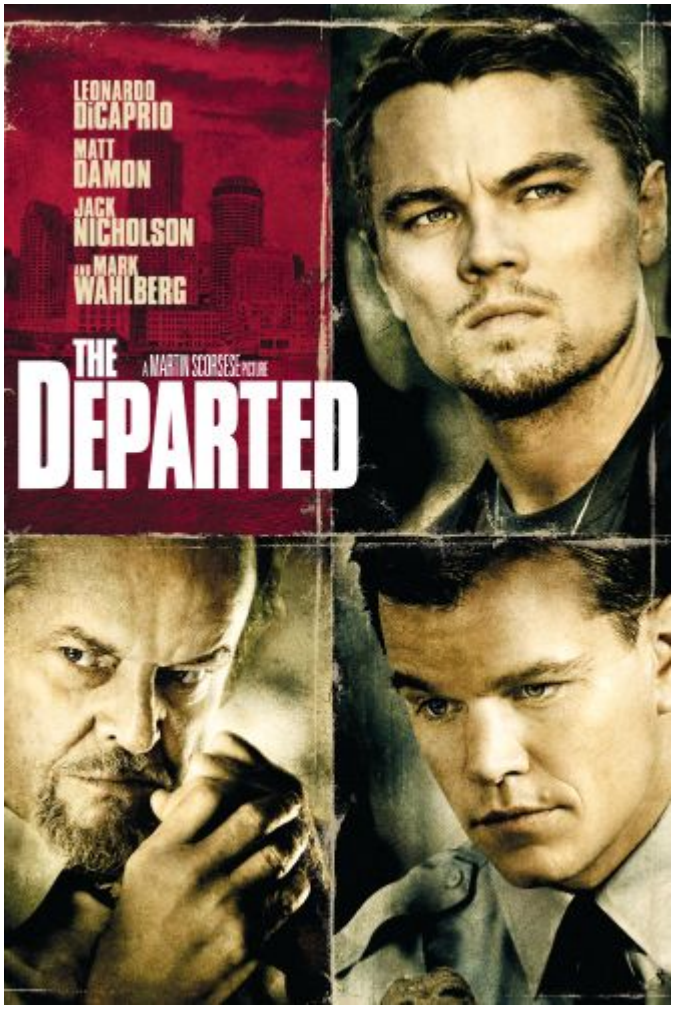

Oh ■■

The $£Mega Money created by Global Drug Trafficking has spawned the growth of other related sectors;

- Intelligence Agencies
- Terrorism Financing
- Offshore Networks

A lack of joined-up ability & approach ■ to stamp it out means some of that money seeps out & can corrupt ■■

So why are so many boxers, trainers, pundits & fans dismissing this?

Money talks ■■■■■

If your paycheque depends on it, are you going to stand up and call it out?

As well as the misery drugs bring to societies, they suck money out & concentrate it in the hands of key criminals

# Boxer who was kneecapped as he stayed in £2million villa belonging to Irish gangster's son says he's 'overwhelmed' by messages of support

- Jamie Moore shot twice in the legs after a gangland-style attack
- It happened on Sunday morning as he left a house in Marbella
- Mansion is owned by Daniel Kinahan, son of drug lord Christy Kinahan
- Police believe Moore was shot at five times in a case of mistaken identity
- The 35-year-old is said to be recovering in hospital under armed guard
- Speaking on Twitter, he said: 'Gutted and confused about what happened'

Those criminals are using popular sport & athletes to launder their ■■■ & Reputations
#SportsWashing #MoneyLaundering

#Media plays a big part in this ecosystem

eg Unregulated #Socials & #Podcasts
Fund them & control the narrative

Popular opinion turns -Key Athletes Support

This isn't completely new...

Just like Trump re-inventing himself from a dodgy/failed businessman to a TV Business Guru & ultimately President of ■■ using #FoxNews #SocialMedia & having questionable connections/funding!

Sports Washing is a tactic

It Works

Perception = Reality

The big broadcasters are cornered! ■

Do @SkySportsBoxing or @BTSportBoxing refuse to deal with this company & the huge group of Athletes they control (pay for)?

■

The #FuryJoshua fight is a perfect example.

Just look at the numbers ■■

It's Great Sport - Demand is there!

# Anthony Joshua and Tyson Fury's £200m heavyweight showdown could be shown by Sky Sports, BT Sport, ESPN AND DAZN, claims Eddie Hearn as broadcasters collaborate to replicate Floyd Mayweather vs Manny Pacquiao

- Joshua vs Fury could be broadcast by various TV networks in the UK and USA
- Eddie Hearn has revealed that event organisers are looking for a compromise
- Hearn has said he doesn't believe it 'will be difficult' to come to an agreement
- Should the broadcasters collaborate on the fight, it will be a British boxing first

Boxing is the toughest of sports.

Any man/woman who is willing to test themselves in the ring against professionally trained fighters deserves respect (& hopefully a decent payday)

MTK can offer the best BECAUSE they have a 'Big Pot' of ■ according to @BBCPanorama

Over Pay!?

Just like big corporations that can undercut smaller businesses because they have fancy structures to avoid tax OR 'Cartel like' relationships that ensure competition is priced out of the market

It's just... this cartels main business is allegedly drugs/murder/death/destruction!

So why hasn't this been stopped?

Why haven't authorities protected societies & arrested criminals?

Why is there so much confusion & cognitive dissonance?

#ModernWorld #FakeNews #GreyZones #Brexit #Trump #CultOfPersonalities

Lack of multi-lateral joined-up thinking/action!■

Anyone looking for good ■ around this, check out;
@MishaGlenny
@MiloPete
@robertosaviano

Also, to see how funny money (dark) can allegedly find it's way into society in other ways, watch out for news from #Liverpool #LCC #Politics #Bribes #Construction #Property etc ■
