MVWAP= Moving average of VWAP
How to apply?
1. Apply VWAP
2.Go to studies,choose Moving average
3. In field, choose VWAP.
4. In type, choose exponenial.

PVWAP: Previous day VWAP.
Just draw a horizontal line at the closing of yesterday VWAP to have PVWAP.

PVWAP
MVWAP
BN 35500 PE: 5 Mins: Pay attention to how price behaves at confluence of VWAP and MVWAP. It can provide some good insights and offer a very low risk trade opportunity.
In this case as per our setup, below the marked point was the short, with SL just above day's high.
