One of an interesting thing in Current stock market, is as soon as Saturn progressing after Retrogression phase, gained the speed in trine to Rahu - Both raw Metals & oil prices are doing good. At the sametime Rahu trine alignment with Jupiter has also boomed the bank market.

Trine movement of Rahu along with Saturn and Jupiter has broken all the bullish trend setter records and amplified the internal economy. In March 2020, Pluto, Ketu and Mars has totally shaken the market into bearish trend. Keep Remember Rahu is trend setter - Strong Bearish,

Ketu - is Trend breaker- Strong bearish.

Untill and unless Jupiter is keep moving aggressively without any affliction with Atichari Motion market will keep booming.

Period of Affliction will start from 21 December 2020 onward & when Sun will Join Jupiter in January 2021

Jupiter will be in its most aggressive motion, This is the period when Market will start fluctuating real bad in January month upto Febrary 2021 period.

From 4th of January 2021 onward upto 28th January, 10th February 2021, as soon as Venus moves toward Dhanu & Capricorn, when complete Sarpa dosha will begin, Jupiter will be in super speed with Sun, there will be heavy conjunction of 6 planets in Capricorn-

Market trend will start changing into bearish mode - Do not forget Capricorn is the only sign which has strong capability to change the already running or set mode (Bullish Mode), that what we have seen in March - April 2020.

Overall change in market scenario will happen

Only difference in March-April 2020 Fall & November-December 2020 conjunction is Durung market fall - Mars, Ketu & Pluto were jointly helped each other in breaking the market trend. Rahu & Ketu were in dual sign of Gemini-Ketu has always given problem in economy in past years

Now Rahu and Ketu have left the Gemini-Sagittarius sign- Rahu is in Kaal Purush sign of Taurus- Wealth sign of 2nd house is helping in amplification of economy and stock market, Even Indian market goes in bearish trend around January-February 2021

It will again regain its strength, market will get stabilise, after some correction when Jupiter will move in Aquarius sign.

Here Rahu is acting like a catalytic factor in balancing the market and wealth and economical scenario of whole world.
