■■■Situation Update, Dec. 3rd – Trump invokes foreign interference provision of his 2018 executive order, authorizing military response to cyber warfare, see NSPM 13 ■■■ [M.Adams]

■■ ■ Ask yourself this question: What was the purpose of yesterday's White House speech about election fraud and vote-rigging?

■ If you think it was all about Trump communicating to the people, think again. This speech was really about Trump communicating with Chris Miller

■ and the DoD about foreign interference in the U.S. election while laying out the key national security justifications that are necessary to invoke what I'm calling the "national security option" for defending the United States against an attempted cyber warfare coup.

■■ Decoding President Trump's Dec. 2nd speech:

■■Consider what Trump said in yesterday's speech. About 95% of this speech was filler. Only 5% really matters, as I detail below:

1. First, he lays out that he has a sworn oath to defend the United States

2. Constitution against the wartime "siege" that's underway:

As President, I have no higher duty than to defend the laws and the constitution of the United States. That is why I am determined to protect our election system, which is now under coordinated assault and siege.

3. He then explains that the vote was criminally rigged with "fraud" (which is a crime) and that it's now time to overturn the election results and correct them:

Millions of votes were cast illegally in the swing states alone, and if that's the case, the results of the

4. individual swing states must be overturned and overturned immediately.

Then he explains that China was part of this entire plan from the very beginning, via their engineering and launching of the coronavirus, which Democrats used to justify mass mail-in ballots which were

5. used to steal the election. This statement specifically invoked national security elements of our defense protocols:

The Democrats have this election rigged right from the beginning. They used the pandemic as an excuse to mail out tens of millions of ballots, which led to

6. a big part of the fraud… and there is no one happier than China.

Trump then calls for a "full forensic audit," which can obviously only take place under military authority, since the local elections officials are corrupt, fraudulent criminals. He explains himself:

7. Dramatically eroding the integrity of our elections was the Democrats' number one priority. For a simple reason:

They wanted to steal the 2020 presidential election. All of the Democrat efforts to expand mail-in balloting laid the groundwork for the systematic and pervasive

8. fraud that occurred in this election.

Then, about 30 minutes into the speech, he invokes legal language that clearly references Trump's Sep. 12, 2018 executive order which describes remedies for foreign interference in U.S. elections. Here's what Trump says:

9. The only conceivable reason why you would block commonsense measures to verify legal eligibility for voting, is you are trying to encourage, enable, solicit, or carry out fraud. It is important for Americans to understand that these destructive changes to our election laws

10. were NOT a necessary response to the pandemic.

The pandemic simply gave the Democrats an excuse to do what they were trying to do for many many years.

Note carefully the phrase, "…trying to encourage, enable, solicit or carry out fraud." Where have we heard something

11. very similar before? In the 2018 EO, which describes who will be subjected to having all their assets seized by the United States government — and note that this applies to corporations, individuals, partnerships and even non-profits: (emphasis added)
Sec. 2. a(ii) to have

12. materially assisted, sponsored, or provided financial, material, or technological support for, or goods or services to or in support of, any activity described in subsection (a)(i)

Sec. 2. a (i) to have directly or indirectly engaged in, sponsored, concealed, or

13. otherwise been complicit in foreign interference in a United States election; Thus, Trump just invoked the 2018 EO and sent an undeniable signal to Chris Miller at the DoD (as well as many other groups) that the Democrats, the treasonous media and the complicit Big

14. Tech giants have all engaged in concealing, advocating or supporting “foreign interference” in the U.S. election.

■ Treason, rendition flights, and military tribunals ■

What is the remedy for such actions of treason against the United States?

15. Under existing U.S. law, it’s a felony crime to try to rig votes. Under military law during a time of war, it’s treason. And under the 2018 EO, each of the entities engaging in this behavior will have all their assets seized by the U.S. Treasury. Translated simply

16. means that Twitter, Facebook, CNN, the Washington Post, Google, MSNBC, etc., are all now able to be completely seized, shut down, or taken over by the Trump administration, as they all engaged in the defined behaviors outlined in the 2018 EO, which Trump just cited.

17. Consider that as I list all the evidence that Trump’s attorneys and DoD “white hat” team members now possess, much of which will surely be presented to SCOTUS, most likely by Sidney Powell, once one of her cases reaches that level of the judicial system:

18. ■ CIA director Gina Haspel admitting to election interference in a full confession which has now been acquired.
■ Dominion executives confessing to engineering backdoors into the systems, which has also been acquired.
■ Packet analysis results from “white hats” who

19. intercepted all the real-time vote-rigging
■ traffic, includes the specific instructions from CIA servers to add the hundreds of thousands of votes in real-time to Dominion tabulation machines in swing states. This is now publicly confirmed by Col. Phil Waldron.

20. ■ Log files and software evidence from the seized CIA servers in Frankfurt, which provides physical and intellectual proof that the CIA inserted hundreds of thousands of votes into the Dominion tabulation machines.

All this evidence exists right now. Trump has it all.

21. His speech lays the official groundwork that can now be cited by other officials (namely, in the DoD and Treasury, which runs the US Secret Service), in order to justify their own initiation of orders for further arrests, rendition flights and wartime activities necessary

22. to defend the United States of America against foreign enemies who are waging cyber warfare against the United States.

GITMO must be getting close to full capacity. Finally, lock and load, patriots, because Trump may still need a million armed patriots to show up in D.C...
