So Chicken noodles has finally made a youtube channel. In this video, she explains why she left Islam and gives some reasons behind it. The video is 8 minutes long. I am going to refute the 2 points she brought up in this clip below.

A Refutation Thread ■■

The 2 points she brought up were:

1) Women receiving half the inheritance than that of a man

2) Women are ordered to cover their bodies to prevent sexualization from men (To wear Hijab).

I am going to refute number 1 first and then number 2.

So why does the quran states that a woman should receive half the inheritance than that of a man? Surely it seems quite misogynistic right?
In reality, Islam is just in every case.

In Islam, a man is supposed to take care of the FINANCIALS of his WHOLE family. This includes his father, mother, wife and his children. Don't you think that taking care of so many people is going to require more money?.

Islam does not order WOMEN to take care of the FINANCES. So even if a woman decides not to help in the financial situation of a house, there is NO SIN on her.

Secondly, the inheritance the man receives is going to be spent on his entire family. The inheritance a woman receives is going to be spent only ON HERSELF. Now tell me chicken noodles, who deserves more share in the inheritance?

Moreover, a WOMAN receives much more MONEY than a man does overall. A woman is supposed to ask for dowry from her husband before they are going to be married. A dowry is a payment. A woman literally can ask for 1 MILLION DOLLARS as a dowry and the man has to pay for it.

If that was not enough, a muslim woman does not have to partake in the finances of the house at all (unless if she wills). She can sleep and enjoy all day. While the husband has to spend all his money on the family and their needs. Why doesn't chicken noodles mention this?

A final blow to noodles on this issue is in the pictures below. In many cases, A WOMAN RECEIVES EQUAL OR EVEN MORE INHERITANCE THAN A MAN DOES. You can read all such cases in these pics below. Noodles is gonna cry after this one.

2. Cases Where Women Have a Share Equal to Men

1. If the deceased leaves a father, a mother, and a son's son.
2. If the deceased leaves a uterine brother and sister.
3. If the deceased leaves full sisters, and uterine brothers and sisters.
4. If the deceased leaves a daughter, brother or the nearest residuary ['Asabah] to the father [with no one to exclude anyone from inheritance].
5. If the deceased leaves a father, a maternal grandmother and a son's son.
6. If the deceased leaves a husband, a mother, two uterine sisters and a full brother. According to 'Umar [raa], two uterine sisters and full brothers share one third equally.
7. A man or a woman is entitled to the whole estate in cases where he or she is the sole heir. For example, the son inherits the whole estate as a residuary, while the daughter inherits half as a sharer and the remainder by the method of Radd [return]. In another example, if the deceased leaves only a father, the father will inherit the estate as a residuary, and if the deceased leaves only a mother, then she inherits a third as a sharer and the remainder goes to her by the method of Radd [return].
8. If the deceased leaves her husband and a full sister, her sister inherits the same as the male. If the deceased leaves a husband and full brother, the husband is entitled to half, while the remainder goes to her brother as a residuary. If she leaves a husband and a sister, then the husband has half and the sister receives the remaining half as well.
9. If the deceased leaves a uterine sister and a full brother. If there is a husband, mother, uterine sister, and a full brother, then the husband is entitled to half, the mother is entitled to a sixth, the uterine sister is entitled to a sixth, and the remainder [one sixth] is given to the full brother as residuary.
10. Dhawul-Arham [distant relatives] which is applied under Egyptian Law in Article 31 of Law no. 77 in 1943. If there are no sharers or residuaries, then the distant relatives are the heirs. In this case, the estate is divided among them equally. For instance, if the deceased leaves a daughter's daughter, a daughter's son, a maternal uncle and a maternal aunt, everyone will receive an equal share.
11. There are six people who are never fully excluded from inheritance: three men and three women. The three men are the husband, the son, and the father, and the three women are the wife, the daughter, and the mother.

There are 30 CASES in which a woman INHERITS more than a man does. On the other hand, there are only 4 CASES in which a man inherits more than a woman.

Islam is so misogynistic right? ■■■■

NOW REFUTATION OF THE 2ND POINT.
Why do women have to wear hijab or cover themselves in front of men to prevent sexualization?.

Apparently chicken noodles does not know that ISLAM has also ordered HIJAB for the men!

Men are supposed to cover their body from the navel to the knees. Men are supposed to wear LOOSE clothing. Men cannot wear tight clothing which may seem seductive to women. Men cannot wear tight clothing that reveals their biceps, triceps or private parts (or anything seductive).

Moreover, Gold and silk are prohibited for men to wear in islam while WOMEN are permitted to wear them. Look at the SAHIH hadith below.

Islam is still misogynistic right ■■■

Sunan an-Nasa'i 5148

It was narrated from Abu Musa that :

The Messenger of Allah [SAW] said: "Gold and silk have been permitted for the females of my Ummah, and forbidden to the males."

أَخْبَرَنَا عَلِيُّ بْنُ الْحُسَيْنِ الدِّرْهَمِيُّ، قَالَ حَدَّثَنَا عَبْدُ الأَعْلَى، عَنْ سَعِيدٍ، عَنْ أَيُّوبَ، عَنْ نَافِعٍ، عَنْ سَعِيدِ بْنِ أَبِي هِنْدٍ، عَنْ أَبِي مُوسَى، أَنَّ رَسُولَ اللَّهِ صلى الله عليه وسلم قَالَ " أُحِلَّ الذَّهَبُ وَالْحَرِيرُ لإِنَاثِ أُمَّتِي وَحُرِّمَ عَلَى ذُكُورِهَا " .

In the West, where women and men dont cover themselves, rape and fornication is as common as drinking water. Infact, if you check the current top 10 countries with highest rape statistics, 0 MUSLIM COUNTRIES ARE THERE.

I wonder why no muslim countries are in the list ■■

Country	Rate ▾	Incidents	Population 2021

Moreover, NO MUSLIM COUNTRIES APPEAR IN THE MOST ADULTEROUS COUNTRIES. Here is a list from 2015 of the most adulterous countries:

There are 1000 more reasons I can show you dear chicken noodles. This is just the tip of the iceberg. Alhamdulilah, muslim countries are growing and are not appearing in such filthy lists. Keep being deluded. Allah has called people like you in the quran as deaf, dumb and blind.

After reading this thread, I am pretty sure the noodles are burnt ■■

Thanks for everyone who read the whole thread. May Allah SWT bless you all.
